## Education

---

Kansas State University (KSU)  
Bachelor of Science in Computer Science

**Aug. 2019 - Dec. 2024**  
Manhattan, Ks

## Experience

---

**Piclist.ai**  
Full Stack Developer

**June 2024 - Present**  
Remote

- Designed and built a reusable React component library across 10+ critical application features, reducing development time for new features.
- Spearheaded the eBay API integration, allowing multiple user accounts to pass through via O-Auth 2.0.
- Performed unit testing using Jest and PyTest.
- Collaborated closely with a small team to define project requirements, design system architecture, and implement key features.

## Skills

---

Javascript, Python, Typescript, React.Js, Node.Js, Express.Js, React Native, Redux, Fast API, SQL, MongoDB, Redis, Langchain, Pinecone, Docker, Jira

## Projects

---

### Childcare App

- Mobile application to assist in day-to-day child care for new parents.
- Track and display important information for each child.
- Used React Native to build and develop an ios/android mobile application.
- Employed Firebase tools for authentication and database services.

### Winforms/.NET Library Database Search System

- A dashboard to allow for quick inventory queries and submissions to and from a connected SQL server database.
- Simple minimalist UI design.
- Specialized SQL queries for search filter optimization.

### Winforms/.NET PoS System

- A Point-of-Sale System for a fictional restaurant built from the C#/.NET framework.
- Allows for the placing and processing of orders in a fast paced environment.
- Accessible UI design.

## Personal Accomplishments

---

Eagle Scout

**Earned 2016**
